

Dictation systems ... more than 50 years

MADE IN GERMANY

1954

THE FIRST GRUNDIG DICTATION DEVICE

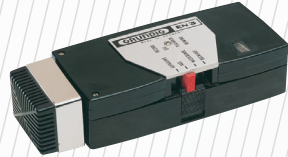

Stenorette - the world's most successful dictation machine is introduced to the market. Because of its initial green housing the dictation device is simply called „tree frog“.

FURTHER MILESTONES OF THE PRODUCT DEVELOPMENT:

NOTEBOOK EN3

1964

Launch of the first electronic notebook EN3 – for the first time with integrated circuits (IC).

STENO CASSETTE 30

1971

The first mini cassette with integrated tape counter – Steno cassette 30 -It's defined as DIN standard (DIN 32750) in 1983.

STENO RETTE 2002

1972

The Stenorette 2002, the first desktop dictation system with Steno Cassette K 30 – being manufactured for 20 years.

STENO RETTE 2080

1984

The first easy to use portable dictation device - Stenorette 2080.

CURRENT STENO RETTE PRODUCT RANGE

2012

Analogue technology has remained very strong and is much in demand, now as ever. Grundig Business Systems is the only manufacturer ensuring to supply the market beyond the year 2015.

DIGITAL SPEECH STANDARD

1995

As a member of the IVA (International Voice Association) Grundig is involved in the development of the Digital Speech Standard (DSS)– further improved to become the DSSPro standard in 2007.

GDV 4030

1996

The first portable digital dictation device - GDV 4030 – with up to 20 minutes of recording time.

„DIGTA“

2002

The first digital dictation machines of the „Digta“ brand are launched to the market: Digta 4010 with slide switch and Digta 3010 with buttons.

Today Digta stands for “Digital Dictation” with Grundig Business Systems.

The product range unites the following features:

Simplicity, efficiency, security, quality and mobility.

Digta▶

DIGTA SONIC FAMILY

2007

The digital PC microphones of the Digta Sonic family are launched - offering highest sound quality and Soft Touch surface.

DIGTA CORDEX

2008

Launch of the Digta CordEx, the first professional wireless dictation microphone, combining the benefits of desktop dictation with the flexibility of mobile dictation devices.

DIGTA 7 – DICTATION REINVENTED

2011

Launch of the “Digta 7” series.

The mobile dictation machines dispose of numerous innovation like slide switch with „Touch Pin”. The Digta 7 Premium BT is the world’s first-ever dictation device that can be used to transfer dictations on the go, via Bluetooth, to a smartphone.
