Transcribe your dictations simply and professionally with a work station solution from Grundig Business Systems! We offer solutions for both individual office typing stations and networked transcription services.

Easy dictation transfer via e-mail or in the DigtaSoft network. Rely on and enjoy the durable and ergonomic premium products which are the perfect choice for external transcription services as well.

### Advantages DigtaSoft One:

- Ideally suitable for starting out on digital dictation
- Wizard installation
- Easy playback-control via foot control
- Dictations are send via e-mail
- Suitable for use with speech recognition systems

### Advantages DigtaSoft Pro:

- Citrix and Windows Terminal Server Support
- Ideally suitable for cooperation in a dictation network
- Automatic setting of deadlines and priorities
- Display of the complete dictation history
- Dictation management with several inboxes and dictation pools possible
- Constant monitoring of the note accompanying the dictation
