

The 10 most important reasons
to buy Grundig Business Systems solutions:

01. German market leader with 60 years of industry experience, primarily in the areas of medicine, law, and administration
02. Comprehensive solution with workflow software, speech recognition and dictation devices
03. Consulting and project management allow us to help you find an individual solution
04. Outstanding technical innovation (eg Barcode functionality, dictation transfer via WLAN)
05. Premium products, design, ergonomics and excellent sound quality – Made in Germany
06. Unique security architecture via PIN/PUK protection, dictation encryption during recording and secure selection of author
07. Easy digital dictation with DigtaSoft One and EasyMode
08. Flexible customization, even in complex system environments (WTS, Citrix, Linux)
09. First-class customer service (hotline, remote support)
10. Nationwide coverage through selected reseller network

Simplicity, efficiency, security, quality

Why go digital?

Digital dictation optimizes the workflow and therefore increases efficiency of the transcription work. Digital dictation systems make the best use of local, national and global network infrastructures. Whether one-to-one or network applications, Grundig has redefined the standard for professional dictation and efficient workflow with its latest software range – “DigtaSoft” – and its class-leading portfolio of hardware devices.

Enhanced recording:

- High quality voice recording
- Digital devices – small, handy and lightweight
- Virtually unlimited recording capacity via memory cards
- High compression rate and optimum playback through professional DSS / DSSPro standard
- Easy editing, inserting and annotation capabilities
- Integrated workflow management

Enhanced transcription:

- Full transcription management speeds workflow, optimises capacity utilization and reduces cost
- Facility to prioritise, ID, time stamp or catalogue dictations
- Ability to e-mail dictations from anywhere to everywhere!
- Excellent sound quality
