Installation instructions

Firmware Update for Digta SonicMic II

i NOTE

Please don't interrupt the update process! Incomplete firmware may result in an inoperative device.

STEP BY STEP

1. Connect the Digta SonicMic II to the PC
2. Start update „sm2updateV0.36.exe“. The device version as well as the update version appear.
3. Start the update process by clicking “Yes”.
4. The progress of the update process will be displayed.
5. Please confirm "FW Upgrade finished!" with “Quit” only when the upgrade process is completed.
6. The update is now finished and the Digta SonicMic II is ready for use.

i NOTE

System requirements to accomplish the updates:

- Windows XP
- Windows Vista 32 Bit
- Windows 7 32 Bit
