Recording, data transfer and archiving

– whether at work or on the go: Custom-made PC software for digital dictation machines from Grundig Business Systems

DigtaSoft One

For an easy start into the world of digital dictation. The main focus lies on the basic recording and playback functions. The consistent user-interface makes a change to DigtaSoft Pro as easy as child's play.

DigtaSoft Pro

Offers extended workflow management with useful additional functions (several inboxes, date workflow etc.) for professional users and service staff thus allowing even more efficient dictation processing.
Supports WTS, CITRIX and Linux Thin-Clients.

DSSPro:

- Optimized for speech recognition
- Real-time encryption (128-/256-bit)
- Protection of data during internet transfer
- Exellent audio quality with 16 kHz sampling
- Use of accompanying information for the dictation ensures efficient workflow
- Prepared with DigtaSoft Voice Interface for speech recognition
- Sending dictations over the network or by e-mail (drag & drop)
- Workflow management (priorities, statuses, deadlines, etc.)
- Status check and dictation process monitoring
- Citrix XenAPP support for DigtaSoft Pro and all Digta dictation devices with USB interfaces (for specific Linux ThinClients)*
- Easy integration for E-Mail-Client (e.g. MicrosoftTM Outlook) and also for email server
- Import of smartphone dictations (iPhone®, Android®)

	DigtaSoft One	DigtaSoft Pro
Operation & Dictation Management		
Dictation play back in the DSS (.dss), DSSPro (.ds2), and wave (.wav) format	•	•
MP3, WAV stereo (Play-back, control, channel selection)	–	•
Import and conversion in DSS from DigtaSoft-compatible apps of AMR, .m4a* and WAV files (PCM, IMA4, GSM 6.10) *Separate decoder required	•	•
256 bit encryption	–	•
Easy creation and processing of professional dictations in DSS and DSSPro	•	•
Clarity thanks to directory structure "My dictations", "Sent dictations" and "Inbox"	–	•
Considering of important additional information via "dictation accompanying note" (author, secretaries, topic, priority, group, etc.)	–	•
Link documents with dictation (.docx, .pdf etc.)	•	•
Recording of up to 16 infos (DSS) / 32 infos (DSSPro) in the dictation	•	•
High data security through encryption and password protection of individual dictations	•	•
Marking and deleting of dictation parts as well as insertion of new dictation parts	•	•
Sorting dictations according to certain criteria	•	•
dynamic dictation search via filter	–	•
Individually configurable DigtaSoft hotkeys to comfortably control third party applications and for improved access for the visually impaired and the blind	–	•
Display of data fields selected from a dictation related data list in the dictation list	–	•
The complete dictation history is visible	–	•
Extended information in the dictation overview	–	•
Extended settings of the user interface	–	•
Individually adjustable sample times (5-120 sec.)	–	•
Set deadlines and priorities (automatically)	–	•
Archive folder for finished dictations	–	•
Workflow-Management		
Send dictations to e-mail recipients (including DSS-Player)	•	•
Send dictations to dictation network recipients	–	•
Automatic import from email inbox	•	•
Opening of Word templates depends on worktype	–	•
Configurable access to dictation pools	–	•
When the dictation is closed the last dictation position is stored possible for both author and typist	–	•
Management of several inboxes	–	•
Digta Messaging Service via modified dictation status on the Digta 7	–	•
Automatic deletion of transferred dictations	–	•
Terminal Server Support: Citrix Xenapp and Windows Terminal Server with Windows Clients and Linux Thin Clients*		
USB audio playback and record in a proper DSS/DSSPro voice channel with extremely low data rate (<8 kbps)	•	•
USB mass storage • dynamic recognition of USB devices as removable medium • automatic drive mapping on the client (no server mapping)	–	•
Parallel operation of DSS Mover and DigtaSoft Pro possible	–	•

	DigtaSoft One	DigtaSoft Pro
Administration/Management		
Central management of users and settings	–	•
Local and central saving of dictations	•	•
Dictation editing log - history - (can be activated)	–	•
Freely configurable work types, sub-types of dictation and dictation groups	–	•
LDAP import function (users/contacts)	–	•
Compatibilities & interfaces		
Voice recognition systems: • DigtaSoft Voice professional / legal / medical, Nuance Dragon	–	•
Interfaces: • MAPI compliant email clients (e.g. MS Outlook) • SMTP / POP3 compliant email servers (e. g. MS Exchange, Novell GroupWise) • LDAP compliant email servers • HID 2 report (to integrate extended hardware functionalities like barcode reader)	•	•
XML-Interface (export of the accompanying note e.g. to SAP based information systems)	–	•
Installation		
MSI-Installation (adjustable for administrators)	•	•
Configuration wizard for dictation networks	–	•
Terminal Server Support Citrix XenApp/Desktop and Windows Terminalserver with Windows Clients and Linux ThinClients*	–	•
Licensing		
Single user	•	•
Concurrent network licensing (Buy only the number of licenses which is equivalent to the number of users being actually logged on simultaneously)	–	•
Tools		
Digta Configurator mobile (local)	•	•
DssMover for automatic dictation transfer from dictation device to PC	•	•
AdapterServiceConfig to configure hotkeys of GBS hardware	–	•

Recommended accessories

Portable dictation machines:
e. g. Digta 7 Series

Desktop dictation workstation:
e. g. Digta SonicMic II / Classic, Digta SonicMic 3 / Classic, Digta Wireless DW 10 / DW 10 PC / MB Pro

Desktop transcription Station:
e. g. Digta Soundbox 830 USB Digta Wireless DW 10

Please make sure to choose only genuine accessories from Grundig. Product liability and warranty service are provided only in this case. The use of non-Grundig accessories or those which are not recommended and approved by Grundig automatically void any warranty claims towards Grundig.

* Supported Thin Clients on request (mail to: support@grundig-gbs.com)
