Ingeniously easy transcription

User-friendly workplace software. Familiar playback with headphones and foot control.

Ingeniously easy purchase

Digta 7 dictation device and workstation for transcription in one package.

Ask for our package price and save!

Simple mobile dictation – just connect the dictation device to any PC, click on “DssMover Portable”, and the dictation is transferred. It’s that easy!

You don’t need to install any new software because DssMover Portable is installed directly onto the Digta 7 and transfers the files to the destination you choose – from any PC. You only have to configure the Digta 7 once. The wizard makes that configuration extremely easy, and after that, the device practically transfers files by itself. Simply ingenious!

And the introductory software DigtaSoft One allows installation of the work station in only three clicks.

DIGTA 7: Simply brilliant and brilliantly simple!

Packaged solution with all benefits from Grundig Business Systems' latest digital dictation technology.

Especially easy:

- Comfortable operation and easy dictation transfer
- Clear, easily legible display in XXL
- Easily perceptible slide switch positions with the "Touch Pin"
- Thanks to DssMover Portable, no new software installation necessary

Digta 7 – Special Edition

Professional Dictation Machine for users on the move

- Digta 7 (type 702) with DssMover Portable
- Akku 962 – lithium-ion rechargeable battery including power supply 477 (can be operated with standard batteries as well)
